

# New FMB Workshop: Getting Ready for Green Deal

## Get an edge with FMB Training

The Green Deal is the Government's flagship scheme designed to help homeowners fund the cost of improvements which will make their homes more energy efficient.

The scheme should lead to increased work for small builders, but how can you access the market? This one-day workshop for small business owners and managers, will help you understand the scheme; decide whether this is an opportunity you can take advantage of now or in the future; and help you create an action plan unique to your business.

Demand is growing, and it pays to have the knowledge to advise your clients on all aspects of the job. FMB's recent survey on energy efficient building (August 2013), showed that 40% of members responding were receiving increased numbers of enquiries about how to improve energy efficiency, and a similar number of members said that they needed to increase their own knowledge in this area. If you are one of them, then this workshop is for you!

Places on the **Getting Ready for Green Deal** one-day workshops cost just **£50.00 + VAT** per person.

\*Eligible companies can claim CITB grant of £50 per day for this training – contact FMB for further information or visit [www.citb.co.uk](http://www.citb.co.uk)

### 2013/2014 Workshop Schedule

Location	Workshop Date
