

New FMB Workshop: Retrofit for Home Energy Efficiency

Get an edge with FMB Training

Installing energy efficiency measures brings many benefits to householders. They can save money on energy bills, improve comfort levels by minimizing draughts, cold spots and damp problems. Many people like the idea of making these improvements but don't take action because they lack information and fear additional costs and disruption from the work. This is why incorporating room-by-room measures as they are refurbishing their home is an attractive option, and small local builders are best-placed to do this work. Energy Saving Trust research shows that most clients will pay a 10% premium on the work if they are convinced that quality, efficiency and comfort levels will be improved.

Being able to offer this advice will help you win more contracts, and get you even more recommendations.

Principles of airtightness, thermal bridging and ventilation are of particular importance and are often an undervalued part of the job. Addressing these principles will ensure that heat loss and condensation are minimized.

Places on the **Retrofit to Improve Home Energy Efficiency** one-day workshops cost just **£50.00 + VAT** per person.

*Eligible companies can claim CITB grant of £50 per day for this training – contact FMB for further information or visit www.citb.co.uk

2013/2014 Workshop Schedule

Location	Workshop Date		
Birmingham	02/10/2013	London	16/10/2013
	14/5/2014		21/05/2014
Bristol	11/02/2014	Manchester	30/09/2014
	26/06/2014		29/01/2014
Cambridge	03/06/2014		11/09/2014
Bridgend	09/10/2014	Newcastle	04/02/2014
Kent	23/09/2014	Reading	15/05/2014
Leeds	03/02/2014	Bournemouth	25/06/2014
	10/09/2014	Edinburgh	17/09/2014
Liverpool	30/01/2014		

The certificate you gain from this course will not count towards Green Deal Installer Certification, it is intended to give you valuable knowledge to incorporate into the jobs you already do. Whilst this knowledge will be complimentary to Green Deal, it will also be useful completely independently of the scheme. Also available from FMB Training: Getting Ready for Green Deal, a one-day workshop which will take you through the requirements to become a Green Deal Installer. See www.fmb.org.uk/training for further details.

Part-funded by

"This project has been delivered with support from the CITB Growth Fund, which aims to ensure that the construction industry has the right people, with the right skills, in the right place, at the right time and is equipped to meet the future skills demands of the industry".

Workshop contents:

- **Why customers increasingly want to reduce energy use**
- **Typical sites of energy loss from homes**
- **Airtightness, ventilation and thermal bridging**
- **Planning the work; statutory approvals, funding**
- **Microgeneration**
- **Products and techniques to improve energy efficiency of**
 - Floors
 - Walls (cavity and solid)
 - Roofs
 - Windows and doors
 - Heating
 - Water
